

Annexure (Revised)

Analytical Balance

Technical Specifications:

The Balance is Fully Microprocessor based with full tare facilities and with in-built Internal Calibration:	
Readability	0.0001 gram (0.1 mg)
Weighing range	0 to 220 gram
Tare range	0 to 220 gram
Repeatability	0.0001 gram (0.1 mg)
Linearity	0.0002 gram (0.2 mg)
Display	LCD
Calibration	Auto with internal weight
Power Supply	220 V, 50 Hz
Weighing pan	SS, 80-mm dia.
Standard Features:	Monoblock technology for overloads and shock protection. Piece counting, percentage weighing, dynamic weighing. Different weighing units, RS 232C interface for printer/computer as in-built standard, breeze break. ISO 9001/ISO 14001 Certified for Quality and Environmental Standard.

Acceptable Make: Mettler-Toledo/Sartorius/Shimadzu
