

Revised Specification for safety goggles

1. Revolutionary safety spectacles showcase the maximum safeguard against eye injuries.
2. Extraordinary 9.75 curved lenses provided more than 180⁰ of coverage, without the distraction of seams or traditional type side shields.
3. 4 points adjustable temples.
4. Semi-frame & slim temple design creates a spectacle that weight only 27 grams.
5. Special nose – buds secure the glass to face without slipping, while providing a pillow soft fit.
6. High impact resistance and anti-scratch lens.
7. Lenses provide 99.9% of UV protection.
8. **The Safety Goggles should meet the standard of CE EN166.**
9. One pieces of the free sample shall be supplied with the offer
